Robotics & Automation

At **Bosch Australia Manufacturing Solutions(BAMS)**, we develop innovative and bespoke solutions for our customers, ranging from start-ups to larger enterprises.

We have vast experience in designing and building a range of reliable robotics and automation applications. We aim to ensure that our customers receive deliverables in a timely manner with maximum efficiency. Our solutions focus on increasing accuracy, adaptability and minimising wastage.

Our bespoke solutions include:

- Automated assembly
- High precision mechanical assembly
- Packing
- Palletising
- Labelling
- Vision
- Welding
- Grinding
- Polishing
- Linishing

The benefits:

Greater Efficiencies

Integrated Systems

Scalability

Seamless Integration

Data Driven Intelligence Potential

High Precision
